

Cyber Academy
BY MAILINBLACK

The cybersecurity training platform for employees

Micro-learning

Optimise the training of your employees with training modules tailored to their learning pace, to ensure a lasting mastery of the fundamentals of cybersecurity.

Made to measure

Raise the level of cyberculture among your staff and develop their skills, while guaranteeing the security of your organisation, thanks to our tailor-made training courses.

Gamified

Immerse your employees in a fun and engaging learning experience thanks to our gamified and interactive content.

Learning programme designed by cyber experts

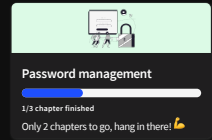

Maximise the commitment of your teams

✓ Multi-platform

Give your employees greater freedom and flexibility in their learning (available on mobile, computer and tablet).

✓ Captivating content

Develop your employees' interest with a variety of captivating content covering both professional and personal topics, available in text and video formats.

✓ + More than 50 chapters

✓ Active training

Guarantee the success of your employees' training with our automatic reminder emails, encouraging them to continue their training to improve their cyber skills.

We haven't forgotten you 📧

Hello Théo 🙌

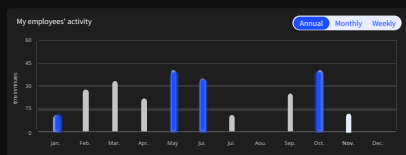

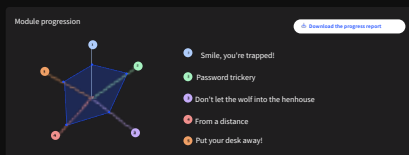

It's been a while since we last saw you on the My Academy app... Take 5 minutes and discover the new chapters that await you!

[Go to My Academy](#)

✓ Valuing their efforts

Reward your staff with success badges and congratulatory messages.

And ensure your staff progress

Thanks to a comprehensive and intuitive statistics interface

Optimise your organisation's security by combining Cyber Academy with Cyber Coach, our solution for raising awareness and training employees to deal with cyber attacks.
